

A learning opportunity for schools, cities, counties, and governmental agencies

Thursday, November 8, 2018
Resource Training & Solutions, Sartell, Minn.

Resource Training and Solutions and Metro ECSU are excited to offer this opportunity to learn about four successful Minnesota mental health initiatives within our communities: **the Bounce Back Project, Pine County's Chemical Health Coalition, Wright County's Safe Schools Program, and CentraCare Health's community programs.**

There will be time for collaborative discussion and an opportunity to ask questions of our expert panelists. We will close the day with a presentation about compassion fatigue, a condition often faced by those supporting people with mental health needs.
